## ENGAGED TO PRINCE

Parisians Say de Chaulnes' Widow May Rewed.

HIS FATHER DENIES RUMOR

Former Miss Theodora Shouts Often

Seep in Company of Young Prince

Joachim Murat Since She Returned to Social Life After Retirement on Account of Husband's Death.

Special to The Washington Herald.

Chicago, Ill., July 15.—A special cable to the Daily News from Paris says: A report that the Duchess de Chaulnes, formerly Miss Theodora Shouts, of Chicago and Washington, whose husband died April 24, 1908, is engaged to Prince Joachim Murat, one of the most eligible of the young beaux of Paris, is being circulated here in spite of the strong denial of the prince's father, who says that his son has hardly finished his education.

The rumor seems to come from the intimates of the prince, who is one of the members of a bachelor set which distinguished itself last season by arranging a series of lavish balls and dinner parties in recognition of the invitations received from Parisian hostesses last winter. Young Murat is a leading spirit in this undertaking, which is unique in social life here.

It was at one of these affairs that Murat met the young widow. The occasion was after the expiration of a year following the death of the Duc de Chaulnes. The season closed with an elaborate masked ball, at which the duchess appeared as a "white goose," while a mysterious girl accompanying her, and supposed to be her sister, made a great impression as a green butterfly. From this ball, say certain social prophets, dates the alleged Murat-Chaulnes engagement.

Prince Murat, who is twenty-four years old, is performing military service in a cavalry regiment near Paris, but when off duty his home is given as the Chateau de Lineville, country seat of the Duchess d'Ux, who is closely related to the Chaulnes family, and who often invites the young American duchess to visit her there. According to French ideas, such a meeting naturally is considered a preliminary to marriage negotiations.

Mrs. Shouts and her younger daughter are at the Chateau de Boursault, near Epervy. They refuse to comment in any way on the rumor.

PHYSICIST MADE INSPECTOR.

Prof. Stimpson to Assist Bureau of Standards.

Prof. Edward F. Stimpson, of the University of Kansas, has been selected as inspector of weights and measures in the Bureau of Standards, to carry out the provisions made by Congress for an investigation of the inspection service in the different States, and to ascertain to what extent fraud is practiced in interstate commerce.

This bureau proposes to send inspectors to advise with local authorities, and to assist them in procuring the proper equipment and in adopting uniform regulations. The appropriation is \$10,000 for one year, and every effort will be made to cover the country and to report to Congress by next June.

Prof. Stimpson is an assistant in the school of physics at the University of Kansas, from which he has been granted one year's leave of absence.

ORDERS GENERAL INSPECTION.

Increased Force Enables Health Department to Extend Field.

By reason of the fact that Congress last year increased the force of inspectors of the health department by two men and again this year added two more to the force, Commissioner Macfarland announced yesterday that the health department was arranging to make inspection of lunch rooms and similar places.

It was stated that owing to the limited force up to last year only those cases in which complaints were filed could be looked into and no original inspections could be made. The present season there is to be as general house to house inspection as possible.

Baltimore Architect Dies.

News was received in this city yesterday of the death of Edmund C. Lind, for many years one of the most prominent architects of Baltimore. Mr. Lind died in Wilmington, Del., last Wednesday, at the home of his son-in-law, Rev. William H. Laird. The funeral services will be held there to-day, and interment will be in Druid Ridge Cemetery, Baltimore. Mr. Lind was the father of Dr. E. George Lind, of this city.

When you have lost or found anything, telephone an advertisement to The Washington Herald, and bill will be sent you at 1 cent a word.

## CHILDREN AT LUNA PARK.

American Salvation Army Took Two Hundred Guests.

The American Salvation Army gave 200 children and their mothers, chosen from among the poor of the city, an outing yesterday at Luna Park.

Two large sight-seeing automobiles, decorated with American flags, were used to convey the party to the resort. The provision wagon brought up the rear.

The excursion was in charge of Maj. John Smalley, Mrs. Marion Smalley, Capt. and Mrs. Kriener, Mrs. William Wiley, and John Leuter. Through their efforts all of the amusements were thrown open to the children free of charge.

PEARL NECKLACE HELD.

Jewel Valued at \$23,000 Falls in Hands of Customs Officers.

New York, July 15.—In the safe of Collector Loeb at the custom house there is a pearl necklace, recently received from a point in the dominion of Uncle Sam close to the Canadian border.

The collector was away to-day and his subordinates would not impart information about the place from which Lawyer William Cady, of Detroit, representing Mr. Chesbrough, it is said, surrendered the necklace on demand on the customs authorities.

The value is said to be \$23,000, and it belongs, or belonged to Mrs. Fremont H. Chesbrough, whose husband owns the Chesbrough coastwise line of steamers, with headquarters in Boston.

Mr. Chesbrough, according to a dispatch from Boston printed here May 21, said that he had bought the real pearls abroad from a person who was in hard luck in Nice.

He learned, he said, that there was a strong probability of the duty on pearls, now 60 per cent, being lower after the change in the tariff law, and he decided to bring in the necklace by way of Canada.
